

## **CHELMSFORD COUNSELLING FOUNDATION**

### **PSYCHODYNAMIC PSYCHOTHERAPIST**

Chelmsford Counselling Foundation is a psychodynamic counselling agency, formally a member of the WPF network. The Foundation has been established for 50 years and has a high reputation in Essex and beyond for its counselling work and in the training of counsellors. Our training programme has been in operation since the inception of the Foundation and is an integral part of our work, standing equal with counselling in our constitution.

We are looking for qualified psychodynamic psychotherapists to join our approved therapist list to whom we can refer our students on our BACP accredited Diploma in Psychodynamic Counselling training.

Our clinical trainees are required to be in personal therapy for at least six months before starting their clinical training, although we encourage them to start as early as they can during the preceding Diploma in Counselling Skills non-clinical year.

The therapists on our list are required to be:

- fully qualified psychodynamic psychotherapists who can provide at least once weekly therapy (remote or face to face)
- you must be qualified with a level 7 post graduate diploma qualification
- been in post qualification practice for at least 3 years
- accredited to a professional body either BACP, UKCP or BPC

We ask therapists to provide confirmation of students' therapy hours at the start of their clinical training and twice a year during their training.

If you would be interested in joining our list and would like more information or to get an application form, please email our Training Co-ordinator, Kellie Willis at [kelliew@chelmsfordcounselling.org.uk](mailto:kelliew@chelmsfordcounselling.org.uk)
